

# T A B I T H A J A C K S O N

I am a second year student of **French, Spanish and ab initio Modern Greek**. These allow me to **relate** in some way to the vast majority of **MML** students as well as those from **other faculties** such as Classics **borrowing** papers from the MML tripos.

Whilst I have been **serving as your Undergraduates' Faculty Representative** great **progress has been made**.

For example:

The format for **audiovisual papers** has been **changed** to allow a **reading of the questions before the first viewing**.

**Electronic access to secondary reading material** is also more readily **available**.

I have **already been in touch** with several fellow students of **all disciplines** about their views as I believe in adopting a **proactive** approach.

**Vote for me to keep the pressure on and drive for positive change** in the following key areas:

 **Standardising** language class teaching

 Increasing provision of **oral supervisions** for **ab initio students** who would like **more support**

 Replacing the **alarms at the entrance to the library** which go off unnecessarily

 **Standardising** examination format

 Reviewing **prescribed editions**, some of which are now out of print or very expensive

 Reducing the negative **environmental** impact of running the MML Faculty

Having been **elected as Undergraduate Faculty Representative** last year and for **six years running** by my school peers as their representative I have plenty of **experience** which equips me to **communicate student views** to governing bodies both **effectively** and **efficiently**.

There are **no problems, only solutions**, and I believe **your input** is most conducive to optimising **your educational experience**.

If you would like to see **further steps** taken in negotiations to get these improvements **realised**, or have **any others** you would like to suggest, have **your say** and vote **Tabitha Jackson** (tj300) as your student representative.
