

Cat Watts for Grad Rep

Hi! I'm Cat Watts, an ELAC MPhil student at Newnham College. I did my undergrad over at Selwyn in MML, so I owe the faculty a lot and have been here for the awesome work they've been doing recently in access, decolonisation and student welfare. Now I'm a grad student, I'm ready to help all of us have the best experience possible.

What can I offer as rep?

- **Termly surveys**, with quick-answer sections for common grad issues and space to raise more specific concerns, as well as to let Faculty know what's working for you
- **A weekly drop-in Grad Clinic on the Sidgwick site** - things move fast in the grad world, especially at MPhil, so I'll be available to help you raise concerns when you need a solution before the next faculty board meeting, or even just to chat
- **A FB group** to pool ideas and keep you up to date on faculty meetings and GU Council, and regular email updates for those not on social media

Why choose me?

- Last year, I was Part II MML rep for French and German. I sent out termly surveys and put forward student concerns at faculty and section meetings, with a focus on access issues including disabled access, gender-neutral toilet provision in the Raised Faculty Building, and suggestions for further decolonisation of the curriculum
- I'm a Language Ambassador for Cambridge, representing students to the outside world and helping us to put our best foot forward as a welcoming global institution
